

IMPORTANT!

Dear Business Owner,

In May 2019, the Missouri General Assembly amended Section 190.460, RSMo., to allow for the implementation of a fee on prepaid wireless telecommunication service charges for E-911 funding. All counties in Missouri had the choice of opting in to this program.

The Department of Revenue is sending this notification to remind all businesses located in opt-in counties of the Prepaid Wireless Emergency Service Charge.

To assist businesses located within the opt-in counties with properly collecting the prepaid wireless telecommunication service charges, the Department encourages you to visit the Department's website at <https://dor.mo.gov/business/pwetsc.php>.
